737-8NG Flight Simulator

Our B737-NG courses were designed to boost your pilot's career. With a top edge B737-800 flight training device along with our professional instructors with thousands of hours of flight experience, it is the perfect combination to bring your training and flight experience to a higher level.

At the completion of the course, the student will receive a customized certificate of completion. Airlines around the world request these type of advanced training.

MCC - Multi Crew Cooperation Course

The Multi Crew Cooperation course will prepare you for the flight in a cockpit that requires more than one pilot. Many airlines around the world request that you complete an MCC course prior to applying for a job.

Some of the main subjects that will be covered in the course are: optimum decision making, communication, division of tasks, use of checklists, mutual supervision, teamwork, and support throughout all phases of flight under normal, abnormal and emergency conditions. The training emphasizes the development of non-technical skills applicable to working in a multi-crew environment.

The MCC Course will also teach you the tools to be an effective leader, when in times will act as the Pilot Flying (PF) of the aircraft and as a team player when acting as the pilot not flying (PNF).
